Art Unit: 1714

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

- 2. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 1. The claims are indefinite in their definition of the B polymer block. Applicant initially defines the B polymer block as being a component selected from polymer blocks (a), (b), and (c) as set forth in claim 1. Applicant then further defines the claimed block polymer as having one or more B polymer blocks consisting of (B-1) through (B-5). Since polymer blocks (a), (b), and (c) differ substantially from polymer blocks (B-1) through (B-5), it is not clear what applicant considers the invention to be.

Applicant's arguments filed 12/8/2003 have been fully considered but they are not persuasive. Applicant's explanation in response to the rejection under 35 USC 112 still indicates that there are two divergent definitions for the same component B polymer block. It is suggested that applicant amend the claims in a manner that would clearly set forth that which applicant intends the B polymer block to be. No anticipatory art has been found. Prior art cited on form PTO 892 is seen to provide technological background information.

1. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE

MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Application/Control Number: 10/030,911

Art Unit: 1714

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
